1. **Amendment to the Investment Policy and Strategy in Chapter 3 - Fund Information on page 7 of the Prospectus**

The information in relation to the screening is hereby deleted in its entirety and replaced with the following:

The External Investment Manager, upon advice and in consultation with the Investment Adviser, will:

- (i) invest in global Shariah-compliant equities, and Islamic REITs that aim to deliver the intended outcomes of Shariah principles through their business conduct, practices and offerings;
- (ii) abide by responsible investing practices that take into account environmental, social and governance (ESG) factors to better manage risk and generate sustainable Long Term returns; and
- (iii) invest in a high conviction portfolio of global Shariah-compliant equities of corporations and Islamic REITs which demonstrate positive sustainability characteristics, i.e. managing the business for the Long Term, recognising its responsibilities towards multiple stakeholders such as its clients, employees, suppliers and the environment. The External Investment Manager believes that such corporations and Islamic REITs are well-placed to maintain their growth and returns over the Long Term. Such corporations and Islamic REITs, when aligned with other drivers of growth, may result in sustainable Long Term earnings growth and investment returns that may be under appreciated by the market.

In selecting the investments for the Fund, the External Investment Manager, upon the advice and in consultation with the Investment Adviser, will screen out Shariah non-compliant stocks and corporations that generate material revenues from specific excluded activities, e.g., production and sale of alcoholic beverages etc. The ESG characteristics of corporations are then assessed using the Investment Adviser's proprietary ESG investment tools and analysis.

The Investment Adviser's proprietary ESG investment tools and analysis are systematic framework used to:

- (i) analyse the relative strength of a corporation's relationship with its stakeholders and the sustainability of its business model and is used to filter out names that are ranked in the 4<sup>th</sup> quartile based on their ESG characteristics versus their peers. It identifies key performance drivers and data points to examine a corporation's strengths and weaknesses across different key stakeholder groups and is a central driver of the assessment of a corporation's stakeholder management. This proprietary tool assesses the corporations based on conventional and unconventional data sources (such as consumer product reviews, revenue from green products and employee review reports) to enable a more complete picture of corporations' performance and to reduce reliance on corporate disclosure, which may be incomplete, particularly among smaller companies in emerging regions. The Investment Adviser's dedicated Global Sector Specialists will also assess the corporations based on independent qualitative and quantitative analysis to provide their view on the forward-looking growth and fundamental risk characteristics of the corporations, including ESG, and an estimate of their fair market value. The output is discussed and debated by the investment team and ultimately the portfolio manager's view on the stocks offering the most attractive risk-adjusted return potential is derived. In

**This Third Supplementary Prospectus is dated 27 December 2023 and must be read together with the Prospectus dated 25 August 2020, the First Supplementary Prospectus dated 15 June 2021 and the Second Supplementary Prospectus dated 1 March 2023.**

aggregate, these filters provide a filtered list of high conviction investment ideas in corporations that are both Shariah-compliant and ESG-compliant. Shariah-compliant stocks held within the portfolio will be weighted according to both their risk-adjusted return potential and the market environment. Adjustments will be made to the portfolio via a competition for capital from new ideas that have strong financial and non-financial characteristic or where there is a change in a corporation's Shariah compliance or deterioration in its ESG or sustainability characteristics. The ESG appraisal is dynamic and will be adjusted according to a change in a corporation's sustainability profile.

- (ii) provide a 'score' of the 'social value' of the portfolio by estimating the net externalities that a corporation may create in terms of social and environmental costs or benefits. This proprietary tool will quantify the positive and negative externalities of each of the ESG indicators and thereafter, each corporation is scored based on the aggregates of the quantified externalities of ESG indicators. It also provides an indication of the social costs or benefits delivered by the portfolio when the sustainability score of the portfolio is derived by aggregating the weighted scores of all corporations in the portfolio as measured by this proprietary tool.
- (iii) monitor the ESG risk and return characteristics of a portfolio, and identify which corporations are material contributors to each of these characteristics. It will identify: (i) which of the portfolio holdings are contributing significantly to the carbon footprint, amongst a list of other ESG metrics, of the portfolio; and (ii) the profile of the portfolio based on third-party ESG metrics, providing an additional basis of comparison relative to its proprietary ESG assessment. The External Investment Manager, upon the advice and in consultation with the Investment Adviser, will also actively monitor the ESG characteristics of the portfolio in aggregate looking at metrics both in absolute and benchmark relative terms.

This multi-layered approach provides multiple inputs into the ESG analysis and assessment of a corporation, and one in which each component is documented and open to scrutiny or challenge. The Investment Adviser's expectation is that the analysis at each stage of the process should corroborate and re-enforce its ESG assessment of a corporation. The Investment Adviser will also use third party inputs (such as MSCI & Refinitiv data) in order to benchmark its assessment and provide additional points of challenge, where applicable. Finally, the portfolio manager ensures a final layer of oversight to ensure consistency in the ESG evaluation of every stock in the portfolio.

The External Investment Manager will, based on the advice of the Investment Adviser, adopt the following strategy to ensure that the corporations which the Fund invests in are in line with the sustainability considerations adopted by the Fund and the overall impact of the investments of the Fund is not inconsistent with any other sustainability considerations:

- (i) proprietary, forward looking and dynamic view of risk based on the Investment Adviser's assessment of a corporation's fundamentals;
- (ii) all investee corporations and Islamic REITs are scored across the same fundamental risk categories which provides a transparent and debatable view of risk and to ensure portfolio risk consistently reflects conviction;

**This Third Supplementary Prospectus is dated 27 December 2023 and must be read together with the Prospectus dated 25 August 2020, the First Supplementary Prospectus dated 15 June 2021 and the Second Supplementary Prospectus dated 1 March 2023.**

- (iii) scrutinises the corporations' specific ESG characteristics through the process described above to ensure that the ESG factors contributing to stock risk and potential returns are properly identified and monitored;
- (iv) monitors a number of principal adverse indicators for the Fund across a number of environmental and social metrics but does not target specific indicators beyond those related to climate change where they seek to achieve a lower carbon profile relative to the benchmark index; and
- (v) monitor news flow, data and disclosures to ensure the assessment of ESG remains current.

The External Investment Manager will ensure that at least 2/3 of the Fund's NAV remains in ESG Shariah-compliant investments at all times.

For this Fund, the External Investment Manager, upon the advice and in consultation with the Investment Adviser, seeks to deliver a portfolio that is delivering higher "social value" relative to the benchmark, but also a positive absolute benefit based on Schroder's proprietary tool. A positive absolute benefit would mean a portfolio comprising of corporations that, in aggregate, would result in a net absolute positive score of their sustainability indicators, expressed as a percentage of sales of the underlying issuers.

If the Fund breaches the aforesaid minimum asset allocation, the External Investment Manager will within a reasonable period of not more than 3 months from the date of the breach take all necessary steps and actions to rectify the breach. However, if the corporations or Islamic REITs that the Fund invests in show persistent deterioration in their ESG factors and/or sustainability characteristics, the External Investment Manager will, in consultation with the Investment Adviser, seek to dispose of the Fund's investments in such corporation or Islamic REITs within an appropriate timeframe not exceeding 3 months from the date such investment no longer qualifies as an ESG security, subject to the underlying liquidity of the security.

The Fund is actively managed. However, the frequency of its trading activities will depend on market opportunities and the assessment of the External Investment Manager.

The Fund will use Islamic derivatives such as Islamic currency forwards for hedging purposes to manage the currency risk of the Classes not denominated in USD.

**2. Amendment to Temporary Defensive Position in "Chapter 3 - Fund Information" on page 8 of the Prospectus**

The information in relation to temporary defensive position is hereby deleted in its entirety and replaced with the following:

The Manager may adopt temporary defensive positions to protect the Fund's investments to respond to adverse market, political, economic or any other conditions by holding more than 20% of the Fund's NAV in Islamic liquid assets that may be inconsistent with the Fund's principal investment strategy and asset allocation.

**This Third Supplementary Prospectus is dated 27 December 2023 and must be read together with the Prospectus dated 25 August 2020, the First Supplementary Prospectus dated 15 June 2021 and the Second Supplementary Prospectus dated 1 March 2023.**

However, the Manager will ensure that at least 2/3 of the Fund's NAV remains in ESG Shariah-compliant investments.

3. **Amendment to Specific Risks of the Fund in “Chapter 3 - Fund Information” on page 10 of the Prospectus**

The “Sustainability Risk” is hereby inserted immediately after the “Risk of Investing in Emerging Markets” as follows:

**Sustainability Risk**

As a qualified SRI fund, the investments of the Fund will be subject to ESG integration methodology which may result in the Fund foregoing opportunities to buy certain Shariah-compliant securities when it might otherwise be advantageous to do so, and/or selling Shariah-compliant securities which are no longer in line with the sustainability characteristics adopted by the Fund when it might be disadvantageous to do so. The Fund may use one or more third party ESG research data providers and/or internal analysis provided by the Investment Adviser. In assessing the eligibility and the continuous monitoring of the investee company are in line with ESG considerations, there is a dependence upon information and data from third party ESG research data providers and internal analysis provided by the Investment Adviser, which may be incomplete, inaccurate or unavailable. As a result, there is a risk to incorrectly assess a Shariah-compliant security or an investee company. To manage and mitigate sustainability risk, we, in consultation with the Investment Adviser, will apply the ESG screening process as set out under the heading “Investment Policy and Strategy” in Chapter 3 of the Prospectus to global corporations and Islamic REITs.

4. **Amendment to Use of Islamic Derivatives in “Chapter 3 - Fund Information” on page 8 of the Second Supplementary Prospectus**

**8. Amendment to General Risks of Investing in the Fund in “Chapter 3 - Fund Information” on pages 8 - 9 of the Prospectus**

- (i) The information on the liquidity risk and financing risk is hereby deleted in its entirety and replaced with the following:

Liquidity Risk

Liquidity risk refers to the ease of liquidating an asset depending on the asset’s volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices.

This Second Supplementary Prospectus is dated 1 March 2023 and must be read together with the Prospectus dated 25 August 2020 and the First Supplementary Prospectus dated 15 June 2021.

Liquidity risk of the Fund is also our ability as manager to honour redemption requests or to pay Unit Holders' redemption proceeds in a timely manner. We will actively manage the liquidity of the Fund and/or where available, take cash financing on a temporary basis as permitted by the relevant laws to manage the Unit Holders' redemption requests.

#### Financing Risk

This risk occurs when investors take a financing to finance their investment. The inherent risk of investing with financed money includes investors being unable to service the financing. In the event Units are used as collateral, an investor may be required to top-up the investors' existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the financing.

- (ii) The "Suspension of Redemption Risk" is hereby inserted immediately after the "Returns Are Not Guaranteed" as follows:

#### Suspension of Redemption Risk

The Fund may, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the redemption of Units under exceptional circumstances, where the fair value of a material portion of the Fund's assets cannot be reasonably determined. Upon suspension, the Fund will not be able to pay Unit Holders' redemption proceeds in a timely manner and Unit Holders will be compelled to remain invested in the Fund for a longer period of time than the stipulated redemption timeline. Hence, Unit Holder's investments will continue to be subjected to the risk factors inherent to the Fund. Please refer to Section 5.15 of this Prospectus for more information on suspension of dealing in Units.

9. **Amendment to Specific Risks of the Fund in "Chapter 3 - Fund Information" on pages 9 - 10 of the Prospectus**

The information on the currency risk is hereby deleted in its entirety and replaced with the following:

#### Currency Risk

As the Base Currency is denominated in USD and the currency denomination of the Classes may be denominated in other than USD, the Classes not denominated in USD are exposed to currency risk. Any fluctuation in the exchange rates between USD and the currency denomination of the Class (other than USD Class and USD (Institutional) Class) will affect the Unit Holder's investments in those Classes (other than USD Class and USD (Institutional) Class). The impact of the exchange rate movement between the Base Currency and the currency denomination of the Class (other than USD Class and USD (Institutional) Class) may result in a depreciation of the Unit Holder's holdings as expressed in the Base Currency.

In order to manage currency risk, we may employ currency hedging strategies to fully or partially hedge the foreign currency exposure of the Class not denominated in USD. However, every hedge comes with a cost and will be borne by the respective Class.

Currency hedging may reduce the effect of the exchange rate movement for the Class being hedged (other than USD Class and USD (Institutional) Class) but it does not entirely eliminate currency risk between the Class and the Base Currency. The unhedged portion

**This Second Supplementary Prospectus is dated 1 March 2023 and must be read together with the Prospectus dated 25 August 2020 and the First Supplementary Prospectus dated 15 June 2021.**

of the Class will still be affected by the exchange rate movements and it may cause fluctuation of NAV of the Class. You should note that if the exchange rate moves favourably, the Class (other than USD Class and USD (Institutional) Class) will not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum size of entering into a hedging contract and the cost of hedging may affect returns of the hedged class.

**10. Amendment to Specific Risks of the Fund in “Chapter 3 - Fund Information” on pages 9 - 10 of the Prospectus**

The following information on OTC counterparty risk is hereby inserted immediately after country risk:

**OTC Counterparty Risk**

OTC counterparty risk is the risk associated with the other party to an OTC Islamic derivative transaction not meeting its obligations. If the counterparty to the OTC Islamic derivative transaction is unable to meet or otherwise defaults on its obligations (for example, due to bankruptcy or other financial difficulties), the Fund may be exposed to significant losses greater than the cost of the Islamic derivatives. The risk of default of a counterparty is directly linked to the creditworthiness of that counterparty. Should there be a downgrade in the credit rating of the OTC Islamic derivatives' counterparty, we will evaluate the situation and reassess the creditworthiness of the counterparty. We will take the necessary steps in the best interest of the Fund.

**11. Amendment to Risk Management Strategies in “Chapter 3 - Fund Information” on page 11 of the Prospectus**

The information on the risk management strategies is hereby deleted in its entirety and replaced with the following:

**Risk Management Strategies**

Risk management is an integral part of our investment management process. We and the External Investment Manager employ measures such as asset allocation strategy in order to manage the specific risks of the Fund. When downturn is expected in equity markets and liquidity risks are high, the External Investment Manager may reduce the Fund's allocation in Shariah-compliant equities and Shariah-compliant equity-related securities and increase its asset allocation to Islamic liquid assets to safeguard the investment portfolio of the Fund. The Fund's exposure will also be spread across various countries, counterparties and companies as diversification strategy is also recognized by us and the External Investment Manager as an essential risk management strategy for the Fund.

In order to ensure that the Fund is managed in accordance with the Guidelines and the Deed, proper procedures and parameters are in place to manage the risks that are applicable to the Fund. Regular monitoring, reviews and reporting are also undertaken by us, the External Investment Manager and the Investment Adviser to ensure that the Fund's investment objective is met.

**This Second Supplementary Prospectus is dated 1 March 2023 and must be read together with the Prospectus dated 25 August 2020 and the First Supplementary Prospectus dated 15 June 2021.**

### Liquidity Risk Management

In managing the Fund's liquidity, we, the External Investment Manager and/or the Investment Adviser, as the case may be, will:

- (a) actively manage the liquidity of the Fund to meet redemption requests from Unit Holders; and/or
- (b) where available, obtain cash financing on a temporary basis for the purpose of meeting redemption requests for Units and for short term bridging requirements subject to the conditions set out in the section below under the heading "Financing and Borrowing".

However, if we have exhausted the above avenue, we will then, in consultation with the Trustee and having considered the interests of the Unit Holders, resort to suspend the redemption of Units to manage the liquidity of the Fund under exceptional circumstances, where the fair value of a material portion of the Fund's assets cannot be reasonably determined. Any redemption request received by us during the suspension period will only be accepted and processed on the next Business Day after the cessation of suspension of the Fund. Please refer to Section 5.15 of this Prospectus for more information on suspension of dealing in Units.

**14. Amendment to "Chapter 3 - Fund Information" on page 13 of the Prospectus**

The following new information on "Use of Islamic Derivatives" and "Securities Lending and Repurchase Transactions" are hereby inserted immediately after investment limits and restrictions:

**Use of Islamic Derivatives**

**Calculation of Global Exposure to Islamic Derivatives and Embedded Derivatives**

The global exposure of the Fund is calculated based on commitment approach and is calculated as the sum of:

- (a) the absolute value of the exposure of each individual Islamic derivative not involved in netting or hedging arrangements;
- (b) the absolute value of the net exposure of each individual Islamic derivative after netting or hedging arrangements; and
- (c) the values of cash collateral received pursuant to the reduction of exposure to counterparties of OTC Islamic derivatives.

Netting and hedging arrangements may be taken into account to reduce the Fund's exposure to Islamic derivatives.

**Netting arrangements**

The Fund may net positions between:

- (a) Islamic derivatives on the same underlying constituents, even if the maturity dates are different; or
- (b) Islamic derivatives and the same corresponding underlying constituents, if those underlying constituents are Shariah-compliant transferable securities, Islamic money market instruments, or units or shares in Islamic collective investment schemes.

**Hedging arrangements**

The marked-to-market value of Shariah-compliant transferable securities, Islamic money market instruments, or units or shares in Islamic collective investment schemes involved in hedging arrangements may be taken into account to reduce the exposure of the Fund to Islamic derivatives.

**This Second Supplementary Prospectus is dated 1 March 2023 and must be read together with the Prospectus dated 25 August 2020 and the First Supplementary Prospectus dated 15 June 2021.**

The hedging arrangement must:

- (a) not be aimed at generating a return;
- (b) result in an overall verifiable reduction of the risk of the Fund;
- (c) offset the general and specific risks linked to the underlying constituent being hedged;
- (d) relate to the same asset class being hedged; and
- (e) be able to meet its hedging objective in all market conditions.

#### **Calculation of Exposure to Counterparty of OTC Islamic derivatives**

The exposure to a counterparty of an OTC Islamic derivative must be measured based on the maximum potential loss that may be incurred by the Fund if the counterparty defaults and not on the basis of the notional value of the OTC Islamic derivative.

The total exposure to a single counterparty is calculated by summing the exposure arising from all OTC Islamic derivative transactions entered into with the same counterparty.

Subject to the aggregate limit under the “Investments Limits and Restrictions” section, the maximum exposure of the Fund to the counterparty, calculated based on the above method, must not exceed 10% of the Fund’s NAV.

#### **Securities Lending and Repurchase Transactions**

The Fund will not participate in securities lending or repurchase transactions.

#### **15. Amendment to Financing and Securities Lending in “Chapter 3 - Fund Information” on page 13 of the Prospectus**

**18. Amendment to “Chapter 4 - Fees, Charges and Expenses” on page 18 of the Prospectus**

The first paragraph of this chapter is hereby deleted in its entirety and replaced with the following:

Due to multiple Classes in this Fund, the indirect fees and/or charges for the Fund are apportioned based on the size of the Class relative to the whole Fund. The information of Islamic money market instruments is hereby deleted in its entirety and replaced with the following:

Islamic Money Market Instruments

Investments in Islamic commercial papers and Islamic treasury bills are valued each day based on the price quoted by bond pricing agency (“BPA”) registered with the SC. Where we are of the view that the price quoted by BPA differs from the market price by more than 20 basis points, we may use the market price provided that we:

- (a) record our basis for using a non-BPA price;
- (b) obtain the necessary internal approvals to use the non-BPA price; and
- (c) keep an audit trail of all decisions and basis for adopting the market yield.

For investments in Islamic money market instruments with remaining term to maturity of not more than 90 days at the time of acquisition, such instruments are valued each day based on amortised cost. The risk of using amortised cost accounting is the mispricing of the Islamic money market instruments. We will monitor the valuation of such Islamic

<sup>^</sup>Multi-class ratio is apportioned based on the size of the Class relative to the whole Fund. This means the multi-class ratio is calculated by taking the value of a Class for a particular day and dividing it with the value of the Fund for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

**This Second Supplementary Prospectus is dated 1 March 2023 and must be read together with the Prospectus dated 25 August 2020 and the First Supplementary Prospectus dated 15 June 2021.**

The NAV per Unit of a Class is calculated by dividing the NAV of the Fund attributable to the Class by the number of Units in circulation of that Class at the end of each Business Day.

Assuming there are 280,000,000 Units of the Fund in circulation at the point of valuation, the NAV per Unit of a Class shall therefore be calculated as follows:

	Fund (USD)	MYR Class (USD)	MYR (Hedged) Class (USD)	MYR (Hedged) (Institutional) Class (USD)	USD Class (USD)	USD (Institutional) Class (USD)
NAV	101,595,184.44	50,797,411.28	20,318,964.52	10,159,844.12	10,159,482.26	10,159,482.26

Conversion to MYR (at USD1: MYR4.00 exchange rate)		MYR1.3546	MYR1.3546	MYR1.3546		

*The NAV per Unit of each Class will be rounded up to 4 decimal places for the purposes of publication of the NAV per Unit.*

#### Unit holdings for each Class

You should note that there are differences when purchasing Units for each Class in certain circumstances.

There is no difference in terms of investment value of each Unit Holder, and all Unit Holders would have equal voting rights at Unit Holders' meetings of the Fund (if voting is done by poll as the Units held by him or her will be proportionate to the value of the Units).

However, this would not apply in situations where a show of hands is required to pass a resolution at a Unit Holders' meeting of the Fund.

#### *Notes:*

- (1) Our distributors may set a lower minimum initial and/or additional investments than the above for investments made via our distributors subject to their terms and conditions for investment.*
- (2) The MYR (Hedged) (Institutional) Class and USD (Institutional) Class are only offered to institutional investors who are investing directly with us and are not available to institutional investors who are investing in the Fund through our distributors.*

The effect of this is that any gains or profits received (hereinafter referred to as “profits”) and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*, will be accorded the same tax treatment as if they were interest.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as ‘permitted expenses’) not directly related to the production of income, as explained below.

“Permitted expenses” refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- the manager's remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$A \times \frac{B}{4C}$$

- where
- A is the total of the permitted expenses incurred for that basis period;
  - B is gross income consisting of dividend<sup>1</sup>, interest and rent chargeable to tax for that basis period; and
  - C is the aggregate of the gross income consisting of dividend<sup>1</sup> and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

<sup>1</sup> Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

### Exempt income

The following income of the Fund is exempt from income tax:

- **Malaysian sourced dividends**

All Malaysian-sourced dividends should be exempt from income tax.
- **Malaysian sourced interest**
  - (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;
  - (ii) interest from debentures or *sukuk*, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;
  - (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;
  - (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013<sup>2</sup>;
  - (v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002<sup>2</sup>;
  - (vi) interest from *sukuk* originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA)<sup>3</sup>; and
  - (vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.
- **Discount**

Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

<sup>2</sup> Effective from 1 January 2019, the income tax exemption for a unit trust fund, pursuant to Paragraph 35A, Schedule 6 of the Income Tax Act, 1967 shall not apply to a wholesale fund which is a money market fund.

<sup>3</sup> Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

### Foreign-sourced income

Pursuant to the Finance Act 2021, income derived by a resident person from sources outside Malaysia and received in Malaysia from 1 January 2022 will no longer be exempt from tax.

The Guidelines issued by the Malaysian Inland Revenue Board on 29 September 2022 define the term “received in Malaysia” to mean transferred or brought into Malaysia, either by way of cash<sup>4</sup> or electronic funds transfer<sup>5</sup>.

Foreign-sourced income (FSI) received in Malaysia during the transitional period from 1 January 2022 to 30 June 2022 will be taxed at 3% of gross. From 1 July 2022 onwards, FSI received in Malaysia will be taxed at the prevailing tax rate(s) of the taxpayer and based on applicable tax rules. Bilateral or unilateral tax credits may be allowed if the same income has suffered foreign tax, and where relevant conditions are met.

Income Tax (Exemption) (No. 6) Order 2022 has been issued to exempt a “qualifying person”<sup>6</sup> from the payment of income tax in respect of dividend income which is received in Malaysia from outside Malaysia, effective from 1 January 2022 to 31 December 2026. The exemption will however not apply to a person carrying on the business of banking, insurance or sea or air transport. As the definition of “qualifying person” does not include unit trust funds, it would mean that resident unit trust funds would technically not qualify for the exemption, unless there are further updates thereto.

### Gains from the realisation of investments

Pursuant to Section 61(1)(b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RPGT) under the Real Property Gains Tax Act 1976 (RPGT Act), if the gains are derived from the disposal of chargeable assets, as defined in the RPGT Act.

<sup>4</sup> “Cash” in this context is defined as banknotes, coins and cheques.

<sup>5</sup> “Electronic funds transfer” means bank transfers (e.g., credit or debit transfers), payment cards (debit card, credit card and charge card), electronic money, privately-issued digital assets (e.g., crypto-assets, stablecoins) and central bank digital currency.

<sup>6</sup> “Qualifying person” in this context means a person resident in Malaysia who is:

- (a) An individual who has dividend income received in Malaysia from outside Malaysia in relation to a partnership business in Malaysia;
- (b) A limited liability partnership which is registered under the Limited Liability Partnerships Act 2012; or
- (c) A company which is incorporated or registered under the Companies Act 2016.

**This Second Supplementary Prospectus is dated 1 March 2023 and must be read together with the Prospectus dated 25 August 2020 and the First Supplementary Prospectus dated 15 June 2021.**

### Implementation of Sales and Service Tax (“SST”)

Sales and Service Tax (“SST”) was re-introduced effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Fund incurs expenses such as management fees, the management services provided by asset and fund managers who are licensed or registered with Securities Commission Malaysia for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007, are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a “taxable person”, who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as “taxable services”).

### Taxation of unit holders

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

#### 1. Taxable distributions

Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount.

The Board of Directors  
Maybank Global Sustainable Equity-I Fund  
4 January 2023

6

Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

## 2. Non-taxable and exempt distributions

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

A retail money market fund is exempted from tax on its interest income derived from Malaysia, pursuant to Paragraph 35A of Schedule 6 of the ITA. Pursuant to the Finance Act 2021, with effect from 1 January 2022, distributions by a retail money market fund from such tax exempt interest income, to a unit holder other than an individual, will no longer be exempt from tax. The distribution to unit holders other than individuals will be subject to withholding tax at 24%. This would be a final tax for non-residents. Malaysian residents are required to include the distributions in their tax returns and claim a credit in respect of the withholding tax suffered. Individuals will continue to be exempt from tax on such distributions.

### Rates of tax

The Malaysian income tax chargeable on the unit holders would depend on their tax residence status and whether they are individuals, corporations or trust bodies. The relevant income tax rates are as follows:

Divide: Units in circulation	280,000,000	150,000,000	90,000,000	10,000,000	30,000,000
NAV per Unit of the Class (USD)		USD 0.33865	USD0.33865	USD1.0159	USD0.33866
Conversion to MYR (at USD1: MYR4.00 exchange rate)		MYR1.3546	MYR1.3546		MYR1.3546

*The NAV per Unit of each Class will be rounded up to 4 decimal places for the purposes of publication of the NAV per Unit.*

## RISK FACTORS

FUND	Maybank Global Sustainable Equity-I Fund
<b>General Risks of Investing in the Fund</b>	<p><u>Market Risk</u>  Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV. We will monitor the financial markets closely and act on any adverse news accordingly.</p> <p><u>Inflation Risk</u>  This is the risk that investors' investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investors' purchasing power even though the value of the investment in monetary terms has increased.</p> <p><u>Liquidity Risk</u>  Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices.</p> <p><u>Financing Risk</u>  This risk occurs when investors take a financing to finance their investment. The inherent risk of investing with financed money includes investors being unable to service the financing repayments. In the event Units are used as collateral, an investor may be required to top-up the investors' existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the financing.</p> <p><u>Manager's Risk</u>  This risk refers to our day-to-day management of the Fund which will impact the performance of the Fund. For example, investment decisions undertaken by us, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the Fund. In order to mitigate this risk, the implementation of internal controls and a structured investment process and operational procedures has been put in place by us.</p>

	<p><u>Non-Compliance Risk</u> This risk refers to the possibility that we may not follow the provisions set out in this Prospectus or the Deed or the law, rules or guidelines or internal operating policies which governs the Fund. Non-compliance may occur directly due to factors such as human error or system failure and can also occur indirectly due to amendment on the relevant regulatory frameworks, laws, rules, and other legal practices affecting the Fund. This risk may result in operational disruptions and potential losses to the Fund. We aim to reduce this risk by placing stringent internal policies and procedures and compliance monitoring processes to ensure that the Fund is in compliance with the relevant fund regulations or guidelines.</p> <p><u>Returns Are Not Guaranteed</u> Investors should be aware that there is no guarantee of any returns, i.e. income distribution or capital appreciation by investing in the Fund. Unlike fixed deposits placed directly by the investors into any financial institution which carry a specific rate of return, the Fund does not provide a fixed rate of return.</p>
<p><b>Specific Risks of the Fund</b></p>	<p><u>Stock Specific Risk</u> Prices of a particular Shariah-compliant stock may fluctuate in response to the circumstances affecting individual companies such as adverse financial performance, news of a possible merger or loss of key personnel of a company. Any adverse price movements of such Shariah-compliant stock will adversely affect the Fund's NAV.</p> <p><u>Investment in Islamic REITs</u> Investing in Islamic REITs involves many of the same risks associated with direct ownership of real estate, including but not limited to possible declines in real estate's value, increase in interest rates and real estate borrowing costs, changes in property taxes, higher operating expenses, and damages from natural or man-made disasters and fall in market rental rates. Any adverse price movements of such Islamic REITs will adversely affect the Fund's NAV.</p> <p><u>Currency Risk</u> As the Base Currency is denominated in USD and the currency denomination of the Classes may be denominated in other than USD, the Classes not denominated in USD are exposed to currency risk. Any fluctuation in the exchange rates between USD and the currency denomination of the Class (other than USD Class) will affect the Unit Holder's investments in those Classes (other than USD Class). The impact of the exchange rate movement between the Base Currency and the currency denomination of the Class (other than USD Class) may result in a depreciation of the Unit Holder's holdings as expressed in the Base Currency.</p> <p>In order to manage currency risk, we may employ currency hedging strategies to fully or partially hedge the foreign currency exposure of the Class not denominated in USD. However, every hedge comes with a cost and will be borne by the respective Class.</p> <p>Currency hedging may reduce the effect of the exchange rate movement for the Class being hedged (other than USD Class) but it does not entirely eliminate currency risk between the Class and the Base Currency. The unhedged portion of the Class will still be affected by the exchange rate movements and it may cause fluctuation of NAV of the Class. You should note that if the exchange rate moves favourably, the Class (other than USD Class) will not benefit from any upside in currency movement due to the hedging strategy. In addition, hedging is subject to a minimum size of entering into a hedging contract and the cost of hedging may affect returns of the hedged class.</p>

#### Profit Rate Risk

Profit rate risk refers to the impact of profit rate changes on the valuation of Islamic money market instruments. When profit rates rise, Islamic money market instruments prices generally decline and this may lower the market value of the Fund's investment in Islamic money market instruments. The reverse may apply when profit rates fall.

In order to mitigate profit rate risk, we will need to manage the Islamic money market instruments portfolio by taking into account the profit rate and time to maturity of the Islamic money market instruments.

#### Country Risk

Investments of the Fund in any countries may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. For example, the deteriorating economic condition of such countries may adversely affect the value of the investments undertaken by the Fund in those affected countries. This in turn may cause the NAV of the Fund or prices of Units to fall.

#### Reclassification of Shariah Status Risk

This risk refers to the risk that the currently held Shariah-compliant equities in the Fund may be reclassified as Shariah non-compliant in the periodic review of the equities by the SACSC, the Shariah Adviser or the Shariah boards of the relevant Islamic indices. If this occurs, we will take the necessary steps to dispose such equities. There may be opportunity loss to the Fund due to the Fund not being allowed to retain the excess capital gains derived from the disposal of the Shariah non-compliant equities. The value of the Fund also may be adversely affected in the event of a disposal of Shariah non-compliant equities at a price lower than the investment cost. Please refer to "Shariah Investment Guidelines" below for details on the treatment of gains and losses as a result of the reclassification of Shariah non-compliant equities.

#### Shariah-compliant Warrants Risk

The Fund may also invest in Shariah-compliant equity related securities equivalent to shares such as Shariah-compliant warrants. The price of Shariah-compliant warrants is typically linked to the underlying stocks. However, the price and performance of such Shariah-compliant warrants will generally fluctuate more than the underlying stocks because of the greater volatility of the warrants market. Generally, as the Shariah-compliant warrants have a limited life, they will depreciate in value as they approach their maturity date, assuming that all other factors remain unchanged. Shariah-compliant warrants that are not exercised at maturity will become worthless and will negatively affect the NAV of the Fund.

#### Risk of Investing in Emerging Markets

The Fund may invest in emerging markets which exhibit lower levels of capital market development when compared to those of developed markets. Given the fast changing investment landscape of emerging markets, areas such as accounting standards, legal and business environment in emerging markets may be less organised when compared to developed markets, increasing the risks of investing in emerging markets. Generally, investment returns in emerging markets are expected to be more volatile than those in developed markets, resulting in potentially higher investment risk that may affect the Fund's returns. In addition to conducting investment research, such emerging markets risks may be mitigated by diversifying the Fund's exposures across various markets and geographic regions.

<b>Risk Management Strategies</b>	<p>Risk management is an integral part of our investment management process. We employ measures such as asset allocation strategy in order to manage the specific risks of the Fund. When downturn is expected in equity markets and liquidity risks are high, we may reduce the Fund’s allocation in Shariah-compliant equities and Shariah-compliant equity related securities and increase its asset allocation to Islamic liquid assets to safeguard the investment portfolio of the Fund. The Fund’s exposure will also be spread across various countries, sectors, counterparties and companies as diversification strategy is also recognized by us as an essential risk management strategy for the Fund.</p> <p>In order to ensure that the Fund is managed in accordance with the Guidelines and the Deed, proper procedures and parameters are in place to manage the risks that are applicable to the Fund. Regular monitoring, reviews and reporting are also undertaken by us to ensure that the Fund’s investment objective is met.</p>
-----------------------------------	---

Investors are reminded that the risks listed above may not be exhaustive and if necessary, they should consult their adviser(s), e.g. bankers, lawyers, Shariah adviser, stockbrokers or independent professional advisers for a better understanding of the risks.

Investments</b></p> <p><b>1. Investment in Malaysia</b></p>

FUND	Maybank Global Sustainable Equity-I Fund
	<p><b><u>Equity:</u></b> The Fund will invest in listed equities based on a list of Shariah-compliant equities issued by the SACSC.</p> <p>For Initial Public Offering (IPO) companies that have yet to be determined the Shariah status by the SACSC, the Shariah Adviser adopts the following analysis as a temporary measure in determining its Shariah status until the SACSC releases the Shariah status of the respective companies.</p> <p>(1) <u>Qualitative analysis</u></p> <p>In this analysis, the Shariah Adviser will look into aspects of general public perception of the companies' images, core businesses which are considered important and <i>maslahah</i> (beneficial) to the Muslim <i>ummah</i> (nation) and the country. The non-permissible elements are very small and involve matters like <i>umum balwa</i> (common plight and difficult to avoid), '<i>uruf</i> (custom) and rights of the non-Muslim community which are accepted under the Shariah.</p> <p>(2) <u>Quantitative analysis</u></p> <p>Companies which passed the above qualitative analysis will be further subjected to quantitative analysis. The Shariah Adviser deduces the following to ensure that the contribution of Shariah non-compliant businesses/activities to the overall revenue /sales/turnover/income and profit before tax of the companies are less than the Shariah tolerable benchmarks:</p> <p>(a) <u>Business activity benchmarks</u></p> <ul style="list-style-type: none"> <li>❖ The 5 per cent benchmark would be applicable to the following business activities: <ul style="list-style-type: none"> <li>• Conventional banking and lending;</li> <li>• Conventional insurance;</li> <li>• Gambling;</li> <li>• Liquor and liquor-related activities;</li> <li>• Pork and pork-related activities;</li> <li>• Non-halal food and beverages;</li> <li>• Shariah non-compliant entertainment;</li> <li>• Tobacco and tobacco-related activities;</li> <li>• Interest income from conventional accounts and instruments (including interest income awarded arising from a court judgement or arbitrator);</li> <li>• Dividends from Shariah non-compliant investments; and</li> <li>• Other activities considered non-compliant according to Shariah.</li> </ul> </li> <li>❖ The 20 per cent benchmark would be applicable to the following activities: <ul style="list-style-type: none"> <li>• Share trading;</li> <li>• Stockbroking business;</li> <li>• Rental received from Shariah non-compliant activities; and</li> <li>• Other activities considered non-compliant according to Shariah.</li> </ul> </li> </ul> <p>The above-mentioned contribution of Shariah non-compliant businesses/activities to the overall revenue/sales/turnover/income</p>

## (4) FEES, CHARGES AND EXPENSES

Due to multiple Classes in this Fund, the indirect fees and/or charges for the Fund are apportioned based on the size of the Class relative to the whole Fund. This means that the multi-class ratio (“MCR”) is calculated by taking the “value of a Class” for a particular day and dividing it with the “value of the Fund” for that same day. This apportionment is expressed as a ratio and is calculated as a percentage. As an illustration, assuming there is an indirect fee chargeable to the Fund of USD100 and the size of MYR Class, MYR (Hedged) Class and USD Class over the size of the Fund is 50%,30% and 20% respectively, the ratio of the apportionment based on the percentage will be 50:30:20, 50% being borne by MYR Class, 30% being borne by MYR (Hedged) Class and 20% being borne by USD Class.

Please refer to the illustration in Section 5.3 of this Prospectus below for better clarity.

## (5) TRANSACTION INFORMATION

### 5.1 Bases of Valuation of Investments

#### Listed Shariah-compliant securities (including listed Islamic collective investment schemes)

Listed Shariah-compliant securities will be valued daily based on the last done market price.

However, if:-

- (a) a valuation based on the market price does not represent the fair value of the listed Shariah-compliant securities, for example during abnormal market conditions; or
- (b) no market price is available, including in the event of a suspension in the quotation of listed Shariah-compliant securities for a period exceeding 14 days, or such shorter period as agreed by the Trustee,

then the listed Shariah-compliant securities would be valued at fair value, as determined in good faith by us based on the methods or bases approved by the Trustee after appropriate technical consultation.

#### Islamic Money Market Instruments

Investments in Islamic commercial papers and Islamic treasury bills are valued each day based on the price quoted by BPA registered with the SC.

For investments in Islamic money market instruments that are not quoted by BPA, such instruments are valued each day at cost, adjusted for amortisation of premium or accretion of discount over their par value at the time of acquisition, less provision for any diminution in value.

#### Islamic Deposits

Islamic deposits placed with financial institutions are valued each day by reference to the value of such investments and the profits accrued thereon for the relevant period.

#### Unlisted Islamic Collective Investment Schemes

Investment in unlisted Islamic collective investment schemes will be valued based on the last published repurchase price.

#### Islamic Derivatives

Islamic derivative positions will be valued daily at fair value, as determined in good faith by us based on methods or bases which have been verified by the auditor and approved by the Trustee.

#### Foreign Exchange Translation

All the foreign assets of the Fund are translated on a daily basis to the Base Currency, USD, using the bid foreign exchange rate quoted by either Reuters or Bloomberg, at United Kingdom time 4.00 p.m. which is equivalent to 11.00 p.m. or 12.00 midnight (Malaysia time) on the same day, or such other time as prescribed from time to time by the Federation of Investment Managers Malaysia (“FiMM”) or any relevant laws.

#### Any other investments

Fair value as determined in good faith by us or External Investment Manager, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

### 5.2 Valuation Point

The Fund is valued once every Business Day after the close of the market in which the portfolio of the Fund is invested for the relevant day but not later than the end of next Business Day.

As such, the daily price of the Fund for a particular Business Day will not be published on the next Business Day but will instead be published 2 Business Days later (i.e., the price will be 2 days old).

### 5.3 Computation of NAV and NAV per Unit

The NAV of the Fund is determined by deducting the value of the Fund's liabilities from the value of the Fund's assets, at a valuation point.

Please note that the example below is for illustration only:

	Fund (USD)	MYR Class (USD)	MYR (Hedged) Class (USD)	USD Class (USD)
Value of the Fund/Class	101,500,000.00	50,750,000.00	30,450,000.00	20,300,000.00
<b>Multi-class ratio<sup>^</sup></b>	<b>100%</b>	<b>50%</b>	<b>30%</b>	<b>20%</b>
Add: Other assets (including cash) & income	200,000.00	100,000.00	60,000.00	40,000.00
Less: Liabilities	100,000.00	50,000.00	30,000.00	20,000.00
NAV before deducting management fee and trustee fee for the day	101,600,000.00	50,800,000.00	30,480,000.00	20,320,000.00
Less: Management fee for the day		(50,800,000 x 1.80% / 365 days)	(30,480,000 x 1.80% / 365 days)	(20,320,000 x 1.80% / 365 days)
	5,010.41	2,505.21	1,503.12	1,002.08
Less: Trustee fee for the day		(50,800,000 x 0.06% / 365 days)	(30,480,000 x 0.06% / 365 days)	(20,320,000 x 0.06% / 365 days)
	125.26	83.51	50.10	33.40
<b>Total NAV (USD)</b>	<b>101,594,864.33</b>	<b>50,797,411.28</b>	<b>30,478,446.78</b>	<b>20,318,964.52</b>

<sup>^</sup>Multi-class ratio is apportioned based on the size of the Class relative to the whole Fund. This means the multi-class ratio is calculated by taking the value of a Class for a particular day and dividing it with the value of the Fund for that same day. This apportionment is expressed as a ratio and calculated as a percentage.

The NAV per Unit of a Class is calculated by dividing the NAV of the Fund attributable to the Class by the number of Units in circulation of that Class at the end of each Business Day.

Assuming there are 260,000,000 Units of the Fund in circulation at the point of valuation, the NAV per Unit of a Class shall therefore be calculated as follows:

	Fund (USD)	MYR Class (USD)	MYR (Hedged) Class (USD)	USD Class (USD)
NAV	101,594,864.33	50,797,432.16	30,478,459.30	20,318,972.87
Divide: Units in circulation	260,000,000	150,000,000	90,000,000	20,000,000
NAV per Unit of the Class (USD)		USD0.33865	USD0.33865	USD1.0159
Conversion to MYR (at USD1:MYR4.00 exchange rate)		MYR1.3546	MYR1.3546	

The NAV per Unit of each Class will be rounded up to 4 decimal places for the purposes of publication of the NAV per Unit.

#### 5.4 Pricing of Units

##### Single Pricing Regime

We adopt a **single pricing regime** in calculating your investments into and redemption of Units. This means that all purchases and redemptions are transacted on a single price (i.e. NAV per Unit). You would therefore purchase and redeem Units at NAV per Unit. The Selling Price per Unit and Redemption Price per Unit are based on Forward Pricing.

##### Selling Price of Units

The Selling Price of a Unit of a Class of the Fund is the NAV per Unit at the next valuation point after the request to purchase Units is received by us (Forward Pricing). The sales charge applicable to the Class is payable by you in addition to the Selling Price for the Units purchased.

##### Calculation of Selling Price

##### Illustration - Sale of Units

##### **Example:**

If you wish to invest RM10,000.00 in MYR Class before 4.00 p.m. on 1 March 2020, and if the sales charge is 5.00% of the NAV per Unit, the total amount to be paid by you and the number of Units issued to you will be as follows:

$$\begin{aligned}
 \text{Sales charge incurred} &= \frac{\text{Investment Amount}}{1 + \text{sales charge (\%)}} \times \text{sales charge (\%)} \\
 &= \frac{\text{RM10,000}}{1 + 5.00\%} \times 5.00\% \\
 &= \text{RM476.19}
 \end{aligned}$$

$$\begin{aligned}
 \text{Net investment amount} &= \text{Investment Amount} - \text{sales charge} \\
 &= \text{RM10,000} - \text{RM476.19} \\
 &= \text{RM9,523.81}
 \end{aligned}$$

$$\begin{aligned}
 \text{Units credited to investor} &= \text{Net investment amount} / \text{NAV per Unit} \\
 &= \text{RM9,523.81} / \text{RM1.000} \\
 &= 9,523.81 \text{ Units}
 \end{aligned}$$

You are advised not to make payment in cash when purchasing Units of the Fund via any individual agent.

### Redemption Price of Units

The Redemption Price of a Unit of a Class of the Fund is the NAV per Unit at the next valuation point after the redemption request is received by us (Forward Pricing).

### Calculation of Redemption Price

#### **Illustration - Redemption of Units**

#### ***Example:***

If you wish to redeem RM10,000.00 from MYR Class before 4.00 p.m. on any Business Day, and if no redemption charge is imposed, the total amount to be paid to you and the number of Units redeemed by you will be as follows:

In the event that the NAV per Unit for MYR Class at the end of the Business Day on 1 March 2020 = RM1.0000

The number of Units that will be redeemed by you will be:  
RM10,000.00 divided by RM1.0000 (the NAV per Unit for MYR Class)  
= **10,000.00 Units**

Redemption charge payable by you = 0% x 10,000.00 = RM0.00

The total amount to be paid to you will be:  
= the number of Units to be redeemed multiplied with the NAV per Unit less redemption charge  
= [10,000.00 Units x RM1.0000] - RM0.00  
= **RM10,000.00**

Therefore, you will receive **RM10,000.00** as redemption proceeds.

## **5.5 Incorrect Pricing**

We shall ensure that the Fund and the Units of the Class are correctly valued and priced according to the Deed and all relevant laws. Where there is an error in the valuation and pricing of the Fund and/or Units, any incorrect valuation and pricing of the Fund and/or Units which is deemed to be significant will involve the reimbursement of money in the following manner:

- (i) by us to the Fund; or
- (ii) by the Fund to you and/or the former Unit Holders.

However, reimbursement of money shall only apply if the error is at or above the significant threshold of 0.5% of the NAV per Unit and the amount to be reimbursed is RM10.00 or more.

***There are fees and charges involved and you are advised to consider the fees and charges before investing in the Fund.***

## **TRANSACTION DETAILS**

### **5.6 How and where to Purchase and Redeem Units of the Fund**

You can purchase and sell Units of the Fund at any of our appointed distributors as set out in Section 15 of this Prospectus.

## 5.7 Investment

The minimum initial investment and minimum additional investment for each Class of the Fund is as set out below:

	MYR Class	MYR (Hedged) Class	USD Class
Minimum Initial Investment <sup>^</sup>	RM1,000	RM1,000	USD1,000
Minimum Additional Investment <sup>^</sup>	RM100	RM100	USD100

<sup>^</sup> or such other amount as determined by us from time to time.

Investors are recognised as Unit Holders only after they have been registered in the Unit Holders' register. The registration takes effect from the date we receive and accept the application to purchase Units from you together with the payment thereof.

### Unit holdings for each Class

You should note that there are differences when purchasing Units for each Class in certain circumstances.

There is no difference in terms of investment value of each Unit Holder, and all Unit Holders would have equal voting rights at Unit Holders' meetings of the Fund (if voting is done by poll as the Units held by him or her will be proportionate to the value of the Units).

However, this would not apply in situations where a show of hands is required to pass a resolution at a Unit Holders' meeting of the Fund.

## 5.8 Redemption of Units

You may redeem part or all of your Units by simply completing the redemption request form and returning it to us.

For partial redemption, the minimum redemption amount is 100 Units or such other number of Units as determined by us from time to time. The Unit holdings for each Class after the redemption must not be less than the Unit holdings set out below:

	MYR Class	MYR (Hedged) Class	USD Class
Minimum Unit holdings <sup>^</sup>	1,000 Units	1,000 Units	1,000 Units

<sup>^</sup> or such other number of Units as determined by us from time to time.

If your Unit holdings are, after a redemption request, below the minimum Unit holdings for the Class, full redemption will be initiated.

You shall be paid within 10 calendar days from the date the redemption request is received by us.

Other than the above conditions, there is no restriction in terms of the frequency of redemption for the Fund.

## 5.9 Transfer of Units

Transfer of ownership of Units is allowed for this Fund.

Transfer of ownership from the account of the deceased Unit Holder to his/her personal representative will only be undertaken through the process of estate administration and death claims procedures.

## 5.10 Switching

You are permitted to switch from and to other funds managed by us provided that both funds are denominated in the same currency. Switching will be made at the prevailing NAV per Unit of the Class to be switched from on a Business Day when the switching request is received and accepted by us, subject to the availability and any terms and conditions imposed by the intended fund to be switched to, if any.

There is no restriction on the frequency of switching. However, you must meet the minimum Units for redemption and the minimum Unit holdings (after the switch) of the Class that you intend to switch from unless you are redeeming all your investments from the Class.

Switching is treated as a withdrawal from 1 fund and an investment into another fund. If you switch from a fund with a lower sales charge to a fund with a higher sales charge, you need to pay the difference in sales charge between the sales charges of these 2 funds in addition to the switching fee. If you switch from a fund with higher sales charge to a fund with a lower sales charge, you do not need to pay the difference in sales charge between these funds.

For example:-

### Scenario 1

If you invest in a fund with no sales charge and now wish to switch to another fund which has a sales charge of 1.00% on the net asset value per unit, you will be charged the difference in sales charge of 1.00% on the net asset value per unit of the fund being switched into in addition to the switching fee of the fund you switched from.

### Scenario 2

If you invest in a fund with a sales charge of 1.00% on the net asset value per unit and now wish to switch to another fund which has no sales charge, you will not be charged any sales charge.

Any switching request made **on or before the cut off time of 4.00 p.m.** will be made at the NAV per Unit of the Class to be switched from when the switching request is received and accepted by us on a Business Day, subject to availability and any terms and conditions imposed by the intended fund, if any.

Any switching request received or deemed to have been received after this cut-off time would be considered as being transacted on the following Business Day.

## 5.11 Dealing Cut-Off Time for Investment and Redemption of Units

The dealing cut-off time is at **4.00 p.m.** on a Business Day.

Any application received before the cut-off time on a Business Day will be processed on the same Business Day based on the Forward Pricing of the Fund.

Any application received after the cut-off time on a Business Day will be treated as having been received on the next Business Day and will be processed on the next Business Day based on the next Forward Pricing of the Fund.

The above is in accordance with the standards issued by FIMM on the dealing cut-off time.

## 5.12 Notice of Cooling-off Period

A cooling-off right refers to the right of the individual Unit Holder to obtain a refund of his investment in the Fund if he so requests within the cooling-off period. - (a) the NAV per Unit on the day the Units were first purchased; and

Dear Sirs

## **Taxation of the unit trust fund and unit holders**

This letter has been prepared for inclusion in this First Prospectus ("the Prospectus") in connection with the offer of units in the unit trust fund known as Maybank Global Sustainable Equity-I Fund (hereinafter referred to as "the Fund").

The purpose of this letter is to provide prospective unit holders with an overview of the impact of taxation on the Fund and the unit holders.

## **Taxation of the Fund**

The taxation of the Fund is subject to the provisions of the Malaysian Income Tax Act 1967 (MITA), particularly Sections 61 and 63B.

Subject to certain exemptions, the income of the Fund comprising profits and other investment income derived from or accruing in Malaysia after deducting tax allowable expenses, is subject to Malaysian income tax at the rate of 24% with effect from the year of assessment 2016.

Under Section 2(7) of the MITA, any reference to interest shall apply, *mutatis mutandis*, to gains or profits received and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*.

The Board of Directors  
Maybank Asset Management Sdn Bhd  
7 February 2020

2

The effect of this is that any gains or profits received (hereinafter referred to as “profits”) and expenses incurred, in lieu of interest, in transactions conducted in accordance with the principles of *Syariah*, will be accorded the same tax treatment as if they were interest.

Tax allowable expenses would comprise expenses falling under Section 33(1) and Section 63B of the MITA. Section 33(1) permits a deduction for expenses that are wholly and exclusively incurred in the production of gross income. In addition, Section 63B allows unit trusts a deduction for a portion of other expenses (referred to as ‘permitted expenses’) not directly related to the production of income, as explained below.

“Permitted expenses” refer to the following expenses incurred by the Fund which are not deductible under Section 33(1) of the MITA:

- the manager's remuneration,
- maintenance of the register of unit holders,
- share registration expenses,
- secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage.

These expenses are given a partial deduction under Section 63B of the MITA, based on the following formula:

$$A \times \frac{B}{4C}$$

where A is the total of the permitted expenses incurred for that basis period;

B is gross income consisting of dividend<sup>1</sup>, interest and rent chargeable to tax for that basis period; and

C is the aggregate of the gross income consisting of dividend<sup>1</sup> and interest (whether such dividend or interest is exempt or not) and rent, and gains made from the realisation of investments (whether chargeable to tax or not) for that basis period,

provided that the amount of deduction to be made shall not be less than 10% of the total permitted expenses incurred for that basis period.

<sup>1</sup> Pursuant to Section 15 of the Finance Act 2011, with effect from the year of assessment 2011, dividend income is deemed to include income distributed by a unit trust which includes distributions from Real Estate Investment Trusts.

Maybank Asset Management Sdn Bhd

### Exempt income

The following income of the Fund is exempt from income tax:

- **Malaysian sourced dividends**

All Malaysian-sourced dividends should be exempt from income tax.

- **Malaysian sourced interest (profits)**

- (i) interest from securities or bonds issued or guaranteed by the Government of Malaysia;
- (ii) interest from debentures or *sukuk*, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission;
- (iii) interest from Bon Simpanan Malaysia issued by Bank Negara Malaysia;
- (iv) interest derived from Malaysia and paid or credited by banks licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013<sup>2</sup>;
- (v) interest derived from Malaysia and paid or credited by any development financial institution prescribed under the Development Financial Institutions Act 2002<sup>2</sup>;
- (vi) interest from *sukuk* originating from Malaysia, other than convertible loan stock, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission or approved by the Labuan Financial Services Authority (LFSA)<sup>3</sup>; and
- (vii) interest which is specifically exempted by way of statutory orders or any other specific exemption provided by the Minister.

---

<sup>2</sup> Effective from 1 January 2019, the income tax exemption for a unit trust fund, pursuant to Paragraph 35A, Schedule 6 of the Income Tax Act shall not apply to a wholesale fund which is a money market fund.

<sup>3</sup> Effective from the year of assessment 2017, the exemption shall not apply to interest paid or credited to a company in the same group or interest paid or credited to a bank licensed under the Financial Services Act 2013 or the Islamic Financial Services Act 2013; or a development financial institution prescribed under the Development Financial Institutions Act 2002.

The Board of Directors  
Maybank Asset Management Sdn Bhd  
7 February 2020

4

- **Discount**

Tax exemption is given on discount paid or credited to any unit trust in respect of investments as specified in items (i), (ii) and (iii) above.

#### **Foreign sourced income**

Dividends, profits and other income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

#### **Gains from the realisation of investments**

Pursuant to Section 61(1) (b) of the MITA, gains from the realisation of investments will not be treated as income of the Fund and hence, are not subject to income tax. Such gains may be subject to real property gains tax (RPGT) under the Real Property Gains Tax Act 1976 (RPGT Act), if the gains are derived from the disposal of chargeable assets, as defined in the RPGT Act.

#### **Implementation of Sales and Service Tax ("SST")**

Sales and Service Tax ("SST") was re-introduced effective 1 September 2018. Sales Tax of 10% (most common rate) or 5% is charged by Malaysian manufacturers of taxable goods or upon importation into Malaysia of such taxable goods, unless specifically exempted under the Sales Tax (Goods Exempted From Tax) Order 2018. Service Tax at the rate of 6% is charged on certain prescribed taxable services performed by taxable persons as stipulated under Service Tax Regulations 2018. The input tax recovery mechanism under the previous GST regime does not apply to SST. Therefore, any SST incurred is not recoverable and will form a cost element for businesses.

Based on the Service Tax Regulations 2018, a unit trust fund is neither regarded as a taxable person nor as providing taxable services and is therefore not liable for SST registration. Where the Fund incurs expenses such as management fees, the management services provided by asset and fund managers are specifically excluded from the scope of Service Tax. As for other fees, such as trustee fees and other administrative charges, these may be subject to 6% service tax provided they fall within the scope of service tax (i.e. are provided by a "taxable person", who exceeds the required annual threshold (in most cases RM 500,000 per annum) and the services qualify as "taxable services").

Maybank Asset Management Sdn Bhd

### **Taxation of unit holders**

For Malaysian income tax purposes, unit holders will be taxed on their share of the distributions received from the Fund.

The income of unit holders from their investment in the Fund broadly falls under the following categories:

1. taxable distributions; and
2. non-taxable and exempt distributions.

In addition, unit holders may also realise a gain from the sale of units.

The tax implications of each of the above categories are explained below:

#### **1. Taxable distributions**

Distributions received from the Fund will have to be grossed up to take into account the underlying tax paid by the Fund and the unit holder will be taxed on the grossed up amount.

Such distributions carry a tax credit, which will be available for set-off against any Malaysian income tax payable by the unit holder. Should the tax deducted at source exceed the tax liability of the unit holder, the excess is refundable to the unit holder.

Please refer to the paragraph below for the income tax rates applicable to the grossed up distributions.

#### **2. Non-taxable and exempt distributions**

Tax exempt distributions made out of gains from the realisation of investments and exempt income earned by the Fund will not be subject to Malaysian income tax in the hands of the unit holders.

The Board of Directors  
Maybank Asset Management Sdn Bhd

<sup>6</sup> The above excludes a business trust and a company which is established for the issuance of asset-backed securities in a securitization transaction approved by the Securities Commission.

### **Gains from sale of units**

Gains arising from the realisation of investments will generally not be subject to income tax in the hands of unit holders unless they are insurance companies, financial institutions or traders/dealers in securities.

### **Unit splits and reinvestment of distributions**

Unit holders may also receive new units as a result of unit splits or may choose to reinvest their distributions. The income tax implications of these are as follows:

- Unit splits - new units issued by the Fund pursuant to a unit split will not be subject to income tax in the hands of the unit holders.
- Reinvestment of distributions - unit holders may choose to reinvest their income distribution in new units by informing the Manager. In this event, the unit holder will be deemed to have received the distribution and reinvested it with the Fund.

## (14) UNIT TRUST FINANCING RISK DISCLOSURE STATEMENT

**Investing in a Unit Trust Fund with Borrowed Money is More Risky than Investing with Your Own Savings.**

You should assess if financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:

- (a) The higher the margin of financing (that is, the amount of money you borrow for every Ringgit Malaysia of your own money which you put in as deposit or down payment) the greater the loss or gain on your investment.
- (b) You should assess whether you have the ability to service the repayments on the proposed financing. If your financing is a variable rate loan, and if profit rates rise, your total repayment amount will be increased.
- (c) If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral (where units are used as collateral) or pay additional amounts on top of your normal instalments. If you fail to comply within the time prescribed, your units may be sold towards the settlement of your financing.
- (d) Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

**The brief statement cannot disclose all the risks and other aspects of financing. You should therefore carefully study the terms and conditions before you decide to take a financing. If you are in doubt about any aspect of this risk disclosure statement or the terms of the financing, you should consult the institution offering the financing.**

### ACKNOWLEDGEMENT OF RECEIPT OF RISK DISCLOSURE STATEMENT

I acknowledge that I have received a copy of this Unit Trust Financing Risk Disclosure Statement and understand its contents.
