FUND MANAGER'S REVIEW, OUTLOOK AND STRATEGY

BIMB (INVESTMENT

The Federal Reserve (Fed) unanimously voted to hold interest rates steady at 4.25%-4.5% range for a second straight meeting in March as the policymakers weigh the impact of President Donald Trump's aggressive economic agenda. The Fed has lowered its gross domestic product (GDP) growth forecast for 2025 to 1.7% from 2.1% and has raised its core inflation projections to 2.8% from 2.5%. Noteworthy that these revisions were done prior to the sweeping trade tariff announced in early April 2025. The United States (U.S.) non-farm payrolls jumped by a strong 228K in March, up from February's revised 117K. On inflation, the core Personal Consumption Expenditure (PCE) Index rose by 2.8% annually in February, up from 2.7% and above expectations of 2.7%.

U.S. Treasury yields declined month-on-month in March against the backdrop of heightened uncertainties brought by Trump's aggressive policies. The 2-year yield declined 10 basis points (bps) to 3.88%, the 5-year yield declined 7bps to 3.95% while the 10-year was held stable at 4.21%. Other developed markets' bond yields also ended lower in March. Local government bonds yield also closed firmer in March with the yield on the 10-year Malaysian Government Securities (MGS) lower by 2bps at 3.77%.

We expect major central banks to continue cutting interest rates over the next 12 months and Trump's policies threaten global equilibrium. Given this outlook, we remain constructive on local sukuk market.
